EVANSVILLE, Oct. 11, 1855. Messrs. Editors: The campaign of 1556 has fairly opened in Indiana, and if straws answer to show the course of the wind, or the current the show the course of the wind, or the current the course of the stream, then from the beginning may be used to the end. From the result of our acounty elections, we may judge what will be the result of the mational elections in our State in 1850. As Indiana was among the first (or I mer say the first) State that was deluded by the nevelty or mystery of the secret order, and thereby induced, or a time, to forsake her Democratic integrity, it will doubtless be cheering to your readers to learn that she has repented, or is now doing her first works over. Know-Nothingism is now struggling in its last gasp, while the Democracy of Indiana are now digging its political grave; and depend upon it, it will be buried so deep, at our next State elections, that the hand of political resurrection will never reach it.

At our election on the sth inst., it was really amusing to see the deep rate means to which they had to resort, in the vain hope of splitting the Democratic vote, and thereby beating their nominees. Ashamed of their last assumed political proportion will never reach it.

A HARD CASE—SUPTOSED DESERTION.—Officer llazen discovered a woman scated in the cars on Sunday morning, at the Little Miami Depot—the Eastern train having just arrived. She refused to depart, saying that she was waiting for her husband, who had promised to mate her here; but now she believed he had gone off with

THE MARRIED WOMAN'S Private Medical Companion, BY DR. A. M. MAURICEAU.

PROPESSOR OF DISEASES OF WOMEN One Hundreth Edition (500,000) 18mo., pp. 250. A standard work of established reputation, found class ed in the catalogues of the great Trade Sales of New York, Philadelphia, and other cities, and sold by

the principal booksellers in the United States. Every woman can here discover, by comparing her own symptoms with those described the nature, character, and cause of her complaint, and be spared much anxiety and suffering, as well as the unpleasantness of making known to, or making inquiry of, a physician in respect to the numberless ailments to which she is sublect. The wife about becoming a mother has often need of instruction and advice in respect to her situa-tion, which she will here find. This book tells her what is the matter, and tells her what to do for it, in simple but chaste words, and such as she can understand. Those suffering from obstructions or irregularities pe culiar to the female system, or from prolapsus uteri (falling of the womb,) or from fluor albus, will each find in its pages the means of prevention, amelioration, and

Much distress of mind, as well as thousands pecuniwily, might be saved to every husband, if the simplest laws appertaining to the marriage state were better understood. That they are better understood is traceable to that natural and almost commendable sensitiveness that will rather suffer than consult or converse with even a medical man in respect to complaints peculiar to

DAYTON, May 1, 1847.

DR. A. M. MAURICEAU—My Dear Sir: My wife has been perceptibly stuking for some three years or more, in consequence of great anguish and suffering some months before and during commencent; every successive one more and more debintaged and prostrated her, putting her lite in imminent danger, and which was on the last occasion desparted of. I supposed that this state of tungs was inertiable, and resigned myself to meet the worst. I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wite, on learning that the great discovery of M. M. Besomeaux provided a remedy. It opened a prospect to me which I little conceived was possible. But for this, ere another year would have passed over my head, in all human probability my wife would have been in her grave and my children left motherless.
